

**Mailboxes should be:**

1. Mounted on a swing-away frame
2. Not to extend into roadway
3. Optional mailboxes must be attached to the same mailbox post
4. Town employees will not be required to repair or replace mailboxes.

To avoid damage to your mailbox and also allow the snowplows to remove the snow from under your mailbox, the dimensions illustrated are recommended.

Placing mailboxes a short distance away from driveways and intersections helps to avoid vision-restricting snowbanks and also damage to your mailbox. The box and base should be strong enough to withstand flying snow and slush from traffic and snowplows.
