

2024 Dog License & Information

There is a full-time animal control officer for Barron County and they have been contacting us each year to ask if we know of anyone who is not licensing their animals. Contact me if your dog passes away or is rehomed, so I may update our records. If you have a dog, please license them, preferably when you pay your taxes.

You can combine the license fee with your property tax check. Please double check the amount is correct.

Please include your best contact phone number with your dog license application. It will be kept private and will only be used if I need additional information from you, or if your dog is lost and the county finds it. This was requested due to the declining use of published land lines. Thank you!

Current proof of Rabies vaccinations needs to accompany the license application. Also include sterilization certificate if not noted on rabies certification. License fees are \$10 for an unaltered dog and \$5 if spayed/neutered. A kennel license is \$35 plus \$5 each dog after 12.

Please provide the following information. Any of it that is already on your rabies certificate you are including does not need to be filled out a second time. Thank you!

Adult Owner Name _____

Street _____

City/State/Zip _____

Phone _____

Dog Name _____ Breed _____

Color _____ DOB _____
